

Make It Yours.

TWO WAYS TO PLAY, MILLION WAYS TO SHINE

Style, substance, and all winning, the MP860 is dual-sided to overcome whatever high-octane situation that arises. Make quick moves with unparalleled speed with the low-friction cloth side. For controlled precision, go for the smooth aluminum side.

Flashy RGB illumination around the edges for ultimate peacocking and style, the LED lighting is programmable via software - and can even sync with other Cooler Master devices for maximum ambiance.

FEATURES

Two slick surfaces: Switching from blazing speed to devastating control is as easy as flipping a coin

Smooth RGB illumination: 19 LEDs adorn the borders of the MP860 with smooth animations and transitions. No laggy, glitchy lighting - this is the real deal

Software customization: Let your inner artist shine with unlimited customization options via our software. What you want is what you get

Effortless synchronization: Synchronize your peripherals and light up your kit with a beautiful orgy of colors.
